

Elect

DENNY COFFMAN (D)

I will work hard for the people of Kona...

- To solve our health care crisis by keeping the Kona hospital fully staffed, increasing reimbursements for health care providers, and increasing opportunities for our young people to enter the health care professions.
- To solve our energy crisis by promoting a long-range energy plan that maximizes our use of renewable energy sources and minimizes the use of fossil fuels.
- To acquire access to higher education opportunities by acquiring funding for the West Hawaii Community College campus.
- To improve Queen Ka'ahumanu highway through funding to complete Phase II of the widening project.
- To keep our economy strong by improving tourism marketing, improving our "truth in labeling" laws to protect Hawaii agricultural and manufactured products, and demanding that West Hawaii receive its fair share of public services and facilities such as a new hospital, Community College, Civic Center, roads and parks.

Working Hard for Kona!
